- **IT School GoIT**
  August 2020 - present
  Full stack developer (full-time attending, min 40 hours per week)

- **V.I. Vernadsky Taurida National University**
  2013 - 2017
  Finance and credit

SUMMARY

As a developer, I have participated in five projects over the last year; two of them were team projects. I am well versed in front-end development, namely, in HTML5 / CSS3, React library, and Rest Api. I'm looking for a career opportunity to improve my current skills and knowledge while making a significant contribution to the company's success.

PROJECT EXPERIENCE

WebStudio
- Project link:https://vladhpn.github.io/goit-markup-hw-08/
- Project details: mobile-first adaptive landing page for web studio
- Technologies: HTML5, CSS3, JS, GULP, SASS, BEM

Phone Book
- Project link: https://vladhpn-goit-react-hw-9.netlify.app/
- Project details: an application that allows to create a phone book, with authorization, filters, and ability to add, edit and remove contacts just from your account.
- Technologies: React.js, Redux.js, HTML5, Sass, Axios, React router, Redux persist, Redux thunk

Contacts Service
- Project link: https://github.com/vladhpn/nodejs-homeworks
- Project details: created two databases, one for registered users, the second for user contacts. After confirming the registration, a user can add contacts, update, search by id and delete contacts. Each user sees only their contacts.
- Technologies: Node.js, MongoDb, Mongoose, Express, Passport-jwt, Nodemailer

Filmoteka
- Project link: https://cp-filmoteka-js.netlify.app/
- Project details: the service is designed to search for movies; you can also make a list with watched movies and movies that the user wants to watch.
- Technologies: HTML5, SASS, JS, GULP, Babel, Axios
- Role: scrum master

Slim Mom
- Project link: https://slim-mom-app.netlify.app/
- Project details: calorie counter allows you to calculate your daily calorie intake, based on your data and preferable weight.
- Technologies: React.js, Redux.js, HTML5, Sass, Axios, React router, Redux persist, Redux thunk, Material-UI.
- Role: scrum master
